READY REF

**The Officials' Standard
for On-Field Timing**

#1140 NCAA Baseball Timer

- ✓ Allows you to concentrate on your responsibilities without the distraction of checking a wrist watch
- ✓ Gives teams the fairness of timing intervals permitted by rule and develops a nice, even flow to the game
- ✓ Silent vibrator provides discreet notification at 20 and 120 seconds with warning signals at 15 and 90 seconds

www.ready-ref.com

Operation

1. Press the rocker switch to the “●” white dot position. Ready Ref will vibrate for two seconds at 90-seconds and vibrate again for 5 seconds at 120 seconds
2. Press the rocker switch to the “○” open circle position. Ready Ref will vibrate for two seconds at 15 seconds then vibrate again for five seconds at 20 seconds
3. The “Reset” push button resets the timer

Maintenance

- Start each season with a new battery.
- Protect from direct heavy rain with the Rain Case provided
- When wet remove battery cover and battery then allow 24 hours to air dry

Important: Every time you reconnect the battery, press the rocker switch to “○” open circle position and allow Ready Ref to finish one complete timing cycle thru all vibration signals until the LED cycles off. This will activate the microprocessor’s battery saving feature.

Time Limits

20-Second Pitch Mechanic

1. When the pitcher receives the ball on the mound, the 20-second time limit starts.
2. Press rocker switch to “○” for timing the 20-second pitch.
3. The timer will give a short, 2 second buzz after 10 seconds have elapsed.
4. After 20 seconds have elapsed, the timer will buzz again for 5 seconds.
5. The time stops when the pitcher begins his pitching motion. Press the “Reset” button to reset the timer.

120 Second Between Innings Time Limit

1. Between innings, teams have 120 seconds to be ready for the first pitch (pitcher holding the ball and touching the pitcher's plate) and a batter standing in the batter's box ready to hit.
2. The 120-second clock begins when all defensive players have started to leave their positions after the last out.
3. Press rocker switch to “●” for timing the 120 second between innings time limit.
4. At the 90-second vibration, visually cue the plate umpire, who will then signal to the pitcher and catcher, “30 seconds left,” and summon the lead-off batter to the plate.
5. The time stops when the umpire calls "Play" for the first pitch of the first batter of the next half-inning.
6. Press the reset button to reset the timer.
